www.levelnineqatar.com

Level Nine Constructions W.L.L is an upcoming Civil Engineering Contractor in the State of Qatar inaugurated in 2011, by a team of professional & competent Engineers having handful of work experience in the Middle East.

Level Nine Constructions W.L.L is a 100% Qatari holding firm and is the civil division of Al Musmuk Group - one of the Qatar's leading Structural Steel fabricators & erectors.

The Company has been registered as a Civil and Building contractor and we are specialized in construction of residential, commercial and industrial buildings, interior decoration, MEP works, GRC & GRP.

We have a dedicated team of Engineers experienced in their respective fields to cater to our clients requirements.

Our core values are:

- Focus on quality and safety with superior customer service.
- Build and maintain strong relationship with our clients.
- Achieve optimum quality within budget and on schedule.
- Continuously develop and invest in our employees.
- Explore new techniques and tools while using the experience and knowledge of our management team to achieve success on every project.
- Continue our history of annual growth
- Use our engineering values coupled with on-site experiences.

2. SERVICES

P.O. Box: 14477-Doha - Qatar. T +974 401 64194, F +974 401 64192

www.levelnineqatar.com

LNC has been licensed in the following fields:

- Constructions- Residential, commercial, industrial buildings and infrastructure works.
- Maintenance- Building modifications, fit-out works, Regular Maintenance works, Interior decoration works and GRC works.
- MEP works-small power and lighting, L V cabling
- Gardening and landscaping works.
- Drainage- Sewage line works

Construction:

Since 2011, we have been providing our clients with reliable solutions to their most complex construction challenges. Today, we are one of the leaders in the industry, for our strength in traditional construction method and for our creative, fresh approach to cutting edge technologies and delivery systems. Our expertise spans the construction industry Level Nine Constructions, from smaller renovations to million dollar projects. We specialized in Industrial facilities, commercial, Institutional and educational buildings, interior modifications, fit-out works, regular maintenance works, interior decoration works, GRC works as well as infrastructure projects.

Our success is driven by more than building some of the most advanced facilities for our corporate and institutional clients. More and more our clients are turning to us for our distinctive ability to implement innovative project management techniques and to serve as a reliable provider of knowledge driven solutions for their complex construction projects.

P.O. Box: 14477-Doha - Qatar. T +974 401 64194, F +974 401 64192

Our team of construction professionals offers a single source solution for all of your construction related needs. Whether its restoration, site preparation, a new facility or facility renovation, we have the experience and personal to provide the highest quality construction on schedule and within budget. We support our clients from project inspection, to the commissioning of the fully operational facility. Our network of local offices enables us to offer our clients the dual advantage of a string local presence and broad geographic reach.

MEP Works:

LNC undertakes HVAC projects, Electro-mechanical projects, Electrical and plumbing works. LNC has an impressive track record in sub-contracting ventures for commercial and housing complexes. The Project involved the construction of school, houses, recreational facilities etc. professional and reliable, LNC's versatile and multi-talented crews are geared to the needs of a project-normal or complex, as well as trained to handle any situation that arises. Providing skilled workers is a big plus for our company from service technicians to general labor, all well trained in safety, productivity and quality.

Mechanical works:

LNC have got tie-up with some other groups of skilled and unskilled (civil, electrical & plumbing) laborers, whose services can also be made available as and when required.

LNC offers the following services:

- Design, plumbing, heating, ventilation and air conditioning to residential, industrial and commercial customers.
- Commercial and domestic air tightness testing.

Gardening and landscaping works:

LNC have experienced in developing outside facilities of all kinds within the landscaping field. Our clients appreciate our coordination and realization of major projects in a calculated period of time. We are specialized in parks and green spaces, public areas, horizontal shows and so many works.

Plants, water, wood, stone and steel are the key elements of our high quality engineering, combined with state of the art technology. By using the newest technologies and products our goal is to decrease especially the consumption of water and to protect the environmental resources for the next generations.

By our long experience as a general contractor in the area of project management, we are able to offer the planning, designing and execution of all kinds of outdoor facilities. Therefore, we can secure the quality, cost efficiency and date observance of every project.

We are well prepared to strategically expand our service globally. For the Middle East, especially, our German engineering know how and our services will be of added value. Projects of our kind include mansions, as well as large palaces and hotel complexes with their landscape features.

4. COMPANY QA/QC POLICY

P.O. Box: 14477-Doha - Qatar. T +974 401 64194, F +974 401 64192

www.levelnineqatar.com

The objectives which underpin the policy are:

- To develop a full understanding of the needs of our customers.
- To work in close co-operation with clients, customers, suppliers and sub-contractors to provide the right quality work and service, first time.
- Actively to seek customer feedback and to use this as a format for continuous assessment and improvement.
- To develop the potential of our employees to ensure all members of staff are capable of undertaking work required in a safe and responsible manner, in accordance with the company's Health and safety and Environmental policies.

Achievement of these policy aims involves all staff, who is individually responsible for the quality of their work, resulting in a continually improving working environment for all.

LNC is fully committed to delivering the objectives of this quality policy statement within all its activities and work undertaken by the company.

LNC has implemented a management structure that is based on the quality and commitment of its professional and experienced management and construction staff.

Our General manager has a specific responsibility for ensuring that the management structure reflects the quality standard, so that compliance with this Quality policy is maintained and improved.

LNC approach is to listen to our clients and customers and to openly discuss the individual requirements of every contract, thus ensuring that our clients remain fully satisfied with projects.

With each project we undertake, a Quality plan is implemented, encompassing control measures that ensure the client's requirements are met, within the specified time, and in line with the budget. To this end, we endeavor to work as a committed team in a spirit of co-operation with the client and their customers.

LNC management and supervisory staff have the authority to make decisions, within the scope of their responsibilities, and are charged with working in accordance with the documented procedures.

LNC objectives are:

- To continue to meet in full the requirements of the client.
- To reduce waste and loss.
- To carry out all our activities within our environmental policy guidelines, thus helping to ensure a sustainable environment for the benefit of the community.
- To continually identify improvements to existing working practices.

In order for LNC to achieve the above objectives, every employee and sub-contractor must:

- Understand customer and client needs.
- Be responsible and accountable for the quality of work.

5. HEALTH & SAFETY POLICY

P.O. Box: 14477-Doha - Qatar. T +974 401 64194, F +974 401 64192

In line with these responsibilities, the LNC aims to provide, as far as in reasonably practicable:

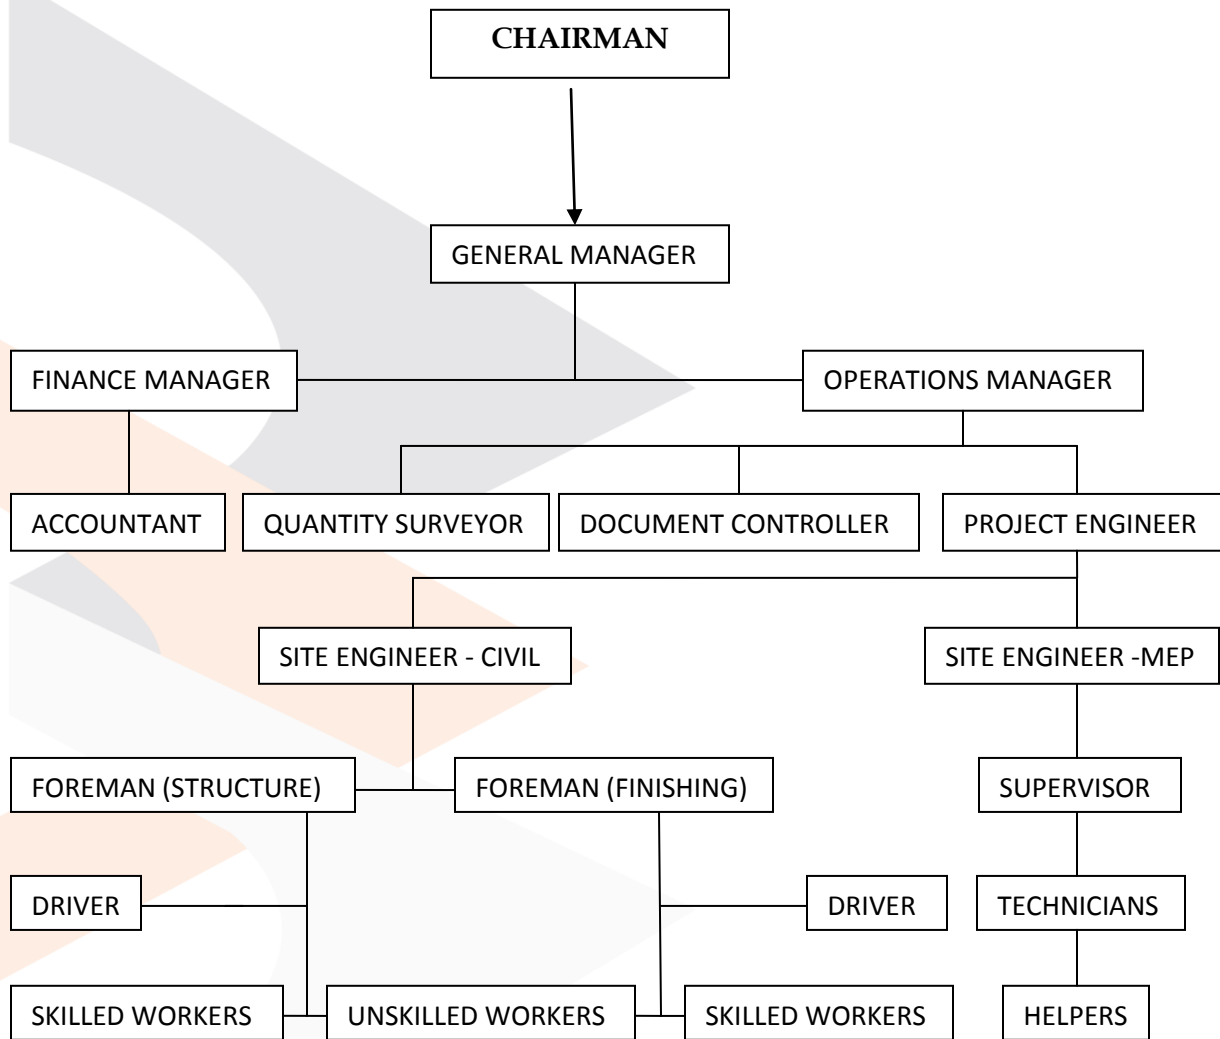

- Safe and healthy working environment for all its employees, the carrying out of risk analysis and the identification of hazards
- System of work which are safe and without risks to health
- General training in health and safety so that all employees are made aware of any potential hazards in relation to their work, and the latest procedures for overcoming them.
- Specific training in safe working procedures, the operation of plant and machinery and accident prevention
- System for conducting a regular review of the training needs of the workforce
- The provision of regular refresher courses, with reference to training already carried out
- Basic training in health and safety to new employees and young workers, and to ensure that whenever new plant or variations in systems of work are introduced, then the appropriate safety training is given
- Guidance on what to do in the event of an emergency
- On-site welfare and first aid provision which complies fully with the statutory requirements together with a system for maintaining the equipment
- Adequate firefighting equipment and fire training, in liaison with the fire authority
- Means of contact with the relevant health and safety bodies so that up to date information on legislation, codes of practice and other technical guidance is available within the company, and is circulated promptly to all concerned
